

Kids for Clean Water SUMMER CAMPS

Choose from seven different sessions of camp at **four** different locations. Our focus is on water, so be prepared to get wet! You will hunt for creek critters and learn how to be one of our best CSI's....Clean Stream Investigators, who search out clean streams or pollution sources on not so clean ones!! As CSI's you also try to solve the clean stream crimes, and solve pollution problems! Just as important, we all have fun in the water! Ages 8-13.
